

# **Proposed Identification of Environmental Tobacco Smoke as a Toxic Air Contaminant**

## **Part B: Health Effects**

**November 2003**  
**Public Review Draft**

**Secretary for Environmental Protection  
California Environmental Protection Agency  
Terry Tamminen**

**Director  
Office of Environmental Health Hazard Assessment  
Joan E. Denton, Ph.D.**

## Authors

### Staff

Bruce Winder, Ph.D.  
Mark Miller, M.D., M.P.H.  
Shelley Green, Ph.D.  
Andrew G. Salmon, M.A, D.Phil.  
Melanie Marty, Ph.D.  
Judy Polakoff, M.S.  
Rachel Broadwin, M.P.H.

### Consultants

Mark Eisner, M.D., M.P.H. UCSF  
Kenneth C. Johnson, Ph.D. Health Canada  
Sharan Campelman, Ph.D. Public Health Institute  
Delia Dempsey, M.D. UCSF  
Dennis Shusterman, M.D., M.P.H. UCSF

## Reviewers

Jay Beaumont, Ph.D.  
Mari Golub, Ph.D.  
Farla Kaufman, Ph.D.  
Melanie Marty, Ph.D.  
George Alexeeff, Ph.D.  
Kathleen Vork, Ph.D.  
Janice Kim, MD, M.P.H

Gayle Windham, Ph.D. CDHS

## Table of Contents

<b>Chapter 1. Introduction.....</b>	1-1
1.0. Impact of ETS on the Health of Californians – Update to the OEHHA 1997 Report.....	1-1
1.1. Organization of the report.....	1-2
1.2. Definition of ETS .....	1-3
1.3. Methodology.....	1-4
1.3.1. Measures of Exposure in Epidemiological Studies.....	1-4
1.3.2. ETS Exposure in Animal Studies.....	1-6
1.3.3. Measures of Effect .....	1-7
1.3.4. Attributable Risk .....	1-7
1.4. Weight-of-Evidence Evaluations.....	1-8
1.5. References .....	1-12
<b>Chapter 2. Biomarkers of Exposure.....</b>	see Part A
<b>Chapter 3. Developmental Toxicity 1: Perinatal Manifestations .....</b>	3-1
3.0. Introduction .....	3-1
3.1. Mechanisms of Injury to Reproduction from Tobacco Smoke .....	3-2
3.1.1. Gene-Environment Interactions .....	3-4
3.1.2. Effects of Pregnancy upon the Biomarker Cotinine.....	3-5
3.1.3. ETS Exposure in Pregnancy: the Association Between Self-Report and Cotinine....	3-7
3.2. Fetal Growth and Preterm Delivery.....	3-9
3.2.1. Epidemiological Studies.....	3-9
3.2.2. Animal Studies of ETS and BW, IUGR.....	3-31
3.2.3. Discussion of Fetal growth and preterm delivery .....	3-31
3.3. Spontaneous Abortion (SAB) and Perinatal Death .....	3-43
3.3.1. Discussion: ETS and Spontaneous Abortion and Perinatal Mortality .....	3-44
3.4. Human Studies of ETS and Congenital Malformations .....	3-45
3.4.1. Human Studies of Congenital Malformations and ETS Exposure.....	3-47
3.4.2. Malformations, Discussion and Conclusions .....	3-50
3.5. Animal Studies of Tobacco Smoke Exposure .....	3-52
3.5.1. Animal Studies – Conclusion .....	3-54
3.6. Final Summary .....	3-54
3.7. References .....	3-58
<b>Chapter 4. Developmental Toxicity: II. Postnatal Manifestations .....</b>	4-1
4.0. Introduction .....	4-1
4.1. Sudden Infant Death Syndrome (SIDS) .....	4-2
4.1.1. Newer Epidemiologic Data .....	4-3
4.1.2. Animal Studies of SIDS and Tobacco Smoke Exposure .....	4-14
4.1.3. Summary of SIDS Epidemiological Data .....	4-17
4.2. Cognition and Behavior.....	4-18
4.2.1. Summary of Previous Findings .....	4-18
4.2.2. New Epidemiologic Studies .....	4-19
4.2.3. Conclusions .....	4-22

4.3. Postnatal physical development.....	4-23
4.3.1. Auditory Effects (And Secondary Neurodevelopmental effects) .....	4-23
4.3.2. Cardiovascular, hematological and immune effects .....	4-24
4.3.3. Miscellaneous effects – Dental caries .....	4-27
4.3.4. Animal studies of postnatal development and tobacco smoke exposure .....	4-27
4.4. Respiratory development and function.....	4-28
4.5. Chapter Summary and Conclusions .....	4-28
4.6. References .....	4-31
<b>Chapter 5. Reproductive Effects .....</b>	<b>5-1</b>
5.0. Introduction .....	5-1
5.1. Female Fertility and Fecundability .....	5-2
5.1.1. Findings on Human Studies of Female Fertility and Fecundability and Active Smoking from the 1997 OEHHA Report .....	5-3
5.1.2. Human Studies of Female Fertility and Fecundability and ETS Exposure.....	5-3
5.1.3. Animal Studies of Female Fertility and Fecundability and Tobacco Smoke Exposure .....	5-13
5.1.4. Discussion and Conclusions.....	5-13
5.2. Other Female Reproductive Effects .....	5-14
5.2.1. Overview of Human Studies of Other Female Reproductive Effects and Active Smoking.....	5-14
5.2.2. Human Studies of Other Female Reproductive Effects and ETS Exposure: Summary of previous findings .....	5-15
5.2.3. Human Studies of Other Female Reproductive Effects and ETS Exposure: Newer Epidemiologic Data .....	5-16
5.2.4. Discussion and Conclusions.....	5-21
5.3. Male Reproductive Toxicity .....	5-22
5.3.1. Overview of Human Studies of Male Reproductive Toxicity and Active Smoking.	5-22
5.3.2. Human Studies of Male Reproductive Toxicity and Exposure to ETS.....	5-22
5.3.3. Discussion and conclusions.....	5-23
5.4. References .....	5-24
<b>Chapter 6. Respiratory Health Effects.....</b>	<b>6-1</b>
6.0. Introduction .....	6-2
6.1. Acute Health Effects .....	6-2
6.1.1. Asthma (exacerbation) .....	6-2
6.1.2. Respiratory Infections (children) .....	6-19
6.1.3. Otitis Media (children) .....	6-33
6.1.4. Sensory Irritation and Annoyance.....	6-43
6.2. Chronic Health Effects .....	6-56
6.2.1. Asthma induction .....	6-56
6.2.2. Chronic Respiratory Symptoms (children) .....	6-81
6.2.3. Lung Growth and Development (children) .....	6-82
6.2.4. Pulmonary Function Changes and Respiratory Symptoms (adults).....	6-87
6.2.5. Studies on Lung Development in Animals .....	6-92
6.3. Susceptible Populations.....	6-93

6.4. Chapter Summary and Conclusions .....	6-94
6.5. References .....	6-96
<b>Chapter 7. Carcinogenic Effects .....</b>	<b>7-1</b>
7.0. Introduction .....	7-1
7.0.1. Misclassification of Smoking Status .....	7-9
7.1. All Cancers (Combined) .....	7-11
7.1.1. All Cancers in Adults .....	7-11
7.1.2. All Cancers in Children.....	7-13
7.2. ETS and Lung Cancer.....	7-29
7.2.1. ETS and lung cancer: previous findings .....	7-30
7.2.2. Case-Control Studies on ETS and Lung Cancer .....	7-31
7.2.3. ETS and lung cancer: recent cohort studies .....	7-45
7.2.4. ETS Exposure from Spouses.....	7-48
7.2.5. Other Sources of ETS Exposure.....	7-59
7.2.6. Summary of ETS and Lung Cancer .....	7-74
7.3. ETS and Cancer Sites Other than Lung that are Associated with Active Smoking .....	7-79
7.3.1. Nasal Sinus Cancer.....	7-79
7.3.2. Cervical Cancer .....	7-81
7.3.3. Bladder Cancer.....	7-86
7.3.4. ETS and Head and Neck Cancer .....	7-88
7.4. ETS and Cancer Sites Where Previous Reviews Have Concluded that Evidence for the Role of Active Smoking is Supportive or Equivocal for Causation .....	7-91
7.4.1. Breast Cancer .....	7-91
7.4.2. Stomach Cancer.....	7-156
7.4.3. Brain Tumors.....	7-157
7.4.4. Leukemia.....	7-167
7.4.5. Lymphomas and Non-Hodgkin's Lymphoma.....	7-181
7.4.6. Other Rare Childhood Cancers .....	7-187
7.5. Chapter Summary and Conclusions .....	7-192
7.6. References .....	7-193
<b>Chapter 8. Cardiovascular Health Effects.....</b>	<b>8-1</b>
8.0. Introduction .....	8-1
8.1. Description of Recent Studies .....	8-2
8.2. Other supportive evidence .....	8-28
8.3. Other Pathophysiological Evidence.....	8-30
8.3.1. Internal carotid artery thickness (IMT) .....	8-30
8.3.2. Endothelial function .....	8-30
8.3.3. Exercise tolerance .....	8-31
8.3.4. Lipid profile.....	8-31
8.3.5. Platelet aggregation and endothelial damage .....	8-32
8.3.6. Fibrinogen levels .....	8-33
8.3.7. Animal studies.....	8-33
8.4. Chapter summary and conclusions .....	8-35
8.5. References .....	8-38
